

# Daiwa P.U.R.E. Energy Conference

## - Power, Utilities, Renewables and Environment

6-8 January 2020  
Daiwa's Hong Kong Office

After 20 years of investment to become the world's factory, China has earmarked CNY10tn to clean up its air, water, and soil as part of its 13th Five-Year Plan (FYP). Prolonged haze in the north of the country has underlined the need for China to tackle its pollution issues and promote clean energy. 2020 will mark the final year of the 13th FYP, and there has been a shift in focus from capacity growth to sustainable growth, and growth free of subsidies. Besides, energy reform has made slower-than-expected progress, with various overhangs still to be overcome. The Daiwa P.U.R.E. Energy Conference will feature several companies from the natural-gas exploration, transmission and distribution, water & environmental, and renewable energy segments, each hand-picked to give investors the most up-to-date information and timely investment ideas.

**Investor registration cut-off date: 13 December, Friday**

Updated as of 3 Jan 2019
